

Assignment 1: Display cart items

- Display the contents of the shopping cart (file: `index.php`)

The screenshot shows a web browser window titled "Library - Chromium" with a single tab labeled "Library". The address bar displays "localhost/ex7/bookstore/index.php". The page content is titled "A PHP bookstore" and features four book items, each in a box with the book title, author, year, price, and an "Add to cart" button.

A PHP bookstore

- Prolog Programming for Artificial Intelligence**
Ivan Bratko, 1996
50.00 EUR
[Add to cart](#)
- Arhitektura računalniških sistemov**
Dušan Kodek, 2000
60.00 EUR
[Add to cart](#)
- Managing Information Systems Security and Privacy**
Denis Trček, 2005
70.00 EUR
[Add to cart](#)
- Študijski koledar**
FRI, 2015
10.00 EUR
[Add to cart](#)

Shopping cart

2 × Managing Information Systems Security and Privacy
3 × Arhitektura računalniških sistemov
1 × Študijski koledar

Total: 330.00 EUR

[Purge cart](#)

Assignment 2: Modify display

- Display the contents of the shopping cart as forms that modify the shopping cart items (file: `index.php`)
- **Hint:** For each cart item, create a form element:
 - have an input type hidden with name `cart_action` and value `edit`
 - have an input type hidden with name `id` and value `$book['id']`

The screenshot shows a web browser window titled "Library - Chromium" with a single tab labeled "Library". The address bar shows the URL `localhost/ex7/bookstore/index.php`. The page content is divided into two main sections.

A PHP bookstore

There are four book items displayed, each in a box with the book title, author, price, and an "Add to cart" button:

- Prolog Programming for Artificial Intelligence**
Ivan Bratko, 1996
50.00 EUR
Add to cart
- Arhitektura računalniških sistemov**
Dušan Kodek, 2000
60.00 EUR
Add to cart
- Managing Information Systems Security and Privacy**
Denis Trček, 2005
70.00 EUR
Add to cart
- Študijski koledar**
FRI, 2015
10.00 EUR
Add to cart

Shopping cart

The shopping cart section is on the right, with a grey background. It lists the items currently in the cart, each with a quantity input field, a delete button (marked with an 'x'), an "Update" button, and the item name:

- 2 × Managing Information Systems Security and Privacy Update
- 3 × Arhitektura računalniških sistemov Update
- 1 × Študijski koledar Update

Total: 330.00 EUR

Below the total, there is a "Purge cart" button.

Assignment 3: Implement the form logic

- Implement the code that changes the quantity of items in the cart
- If the quantity of a book is set to 0, remove that book from the cart

(file: `manage-cart.php`)
