## LASTNOSTI KARTEZIČNEGA PRODUKTA

1. Kartezični produkt in unija:

$$A \times (B \cup C) = (A \times B) \cup (A \times C)$$
  
 $(A \cup B) \times C = (A \times C) \cup (B \times C)$ 

2. Kartezični produkt in presek:

$$(A \cap B) \times (C \cap D) = (A \times C) \cap (B \times D)$$

Posledici:

$$A \times (C \cap D) = (A \times C) \cap (A \times D)$$
 če izberemo  $A = B$   $(A \cap B) \times C = (A \times C) \cap (B \times C)$  če izberemo  $C = D$ 

- 3.  $A \times B = \emptyset \Leftrightarrow A = \emptyset \vee B = \emptyset$
- 4.  $A \subseteq C \land B \subseteq D \Rightarrow A \times B \subseteq C \times D$
- 5.  $A \times B \subseteq C \times D \land A \times B \neq \emptyset \Rightarrow A \subseteq C \land B \subseteq D$
- 6.  $|A| = k \land |B| = \ell \implies |A \times B| = k \cdot \ell$
